

HARAMBEE ARTS *Travel to Kenya*

Let's pull together *September 14-27, 2018*

For a unique study/work/fundraising safari (journey in Swahili) in Expressive Arts Therapy

Join us for an extraordinary opportunity to train in the Harambee Arts methodology with its creator, Gloria Simoneaux. You will be working alongside long-term local staff who have devoted their lives in direct service to individuals impacted by extreme poverty, HIV/AIDS, incarceration, trafficking, violence and other traumas.

The first week you will travel to Nanyuki and stay in luxury tents at the foot of Mt. Kenya where you will receive four days of intensive training in our unique methodology. In Nanyuki, you will go on safari and see elephants, lion, rhinos and other wild animals at Ol Pejeta Conservancy.

During the second week, you will share the intimate experience of visiting and participating in Harambee Arts projects in the Kibera slum, at a school for children with autism and other special needs in the Mathare slum and at the Langata Women's Prison, working with HIV+ prisoners.

You will experience the phenomenal healing power of the Expressive Arts and the long-term success of Harambee Arts staff of 12 who bring joy and love into the lives of severely neglected communities.

In Nairobi, participants will also have opportunities to meet with Kenyan therapists to discuss the issues and challenges of supporting children in Africa.

Learning goals

- Use multiple art forms – including visual arts, dance/movement, singing, storytelling and drama – as transformative healing modalities
- Use Expressive Arts to create a safe space for participants to heal, especially when they have no sense of safety
- Use Expressive Arts to create community by allowing everyone to be heard and valued
- Use combined therapeutic play and Expressive Arts to support the development of resilience

*All Activities Are
Subject To Change*

LET'S PULL TOGETHER is a non-profit organization

that partners with grassroots programs in Africa and Nepal in the training of local caregivers to provide healing art programs for vulnerable women and children.

This trip is geared to English speaking individuals who will learn how to use the arts for healing, with an emphasis on cultural sensitivity in settings of severe post-traumatic stress. The trip is not clinically oriented. It is a profound adventure of the heart which we are fortunate to share with remarkable children and women.

Accommodations

Six nights at Kongoni Camp www.kongonicamp.com. Located 2 km from Nanyuki Town northwest of Mt.
